Keynote Speaker

As the FirstNet Director of Government Affairs, Edward Parkinson is responsible for intergovernmental relations with local, state and federal organizations.

Previously, Mr. Parkinson served for five years as a Professional Staff Member for the House Homeland Security Committee, then chaired by Rep. Peter T. King of New York. During this period, Mr. Parkinson's primary responsibility was in the field of first responder telecommunications. He also worked on issues including border security, emergency preparedness, cybersecurity and investigations into waste, fraud and abuse of government resources.

Mr. Parkinson earned a BA and an Honors postgraduate degree in International Affairs from the University of the Witwatersrand in Johannesburg, South Africa. In 2012 he completed a Masters degree in Liberal Studies from Georgetown University with a focus on International Affairs.

Welcome to the 2013 Interoperability Conference!

This event brings together a statewide audience of law enforcement, fire fighters, emergency managers, and other public safety departments to identify major challenges that need to be addressed in order to advance public safety interoperable communications in Arkansas.

A primary focus of the conference is enhancing multiagency cooperation, peer to peer networking, and making the latest information on public safety communications available to those who are in need of the information.

NOTE: Conference times, agenda, and speakers are subject to change.
