## FEMA Offers Resources for Property Owners Rebuilding After Disaster

NORTH LITTLE ROCK – FEMA offers a wide range of free resources for Arkansas homeowners who are either rebuilding after the spring storms or preparing for the next time disaster strikes.

FEMA maintains an extensive online library, including bilingual and multimedia resources, which describe the measures contractors or do-it-yourselfers can take to reduce risks to property. FEMA publications can be viewed online and downloaded to any computer.

For rebuilding information, go to [www.fema.gov](http://www.fema.gov) and click on “Plan, Prepare and Mitigate.” There are numerous links to resources and topics including “Protecting Homes,” “Protecting Your Business” and “Safe, Strong and Protected Homes and Communities.” There are also links to information about disaster preparedness.

The decision to rebuild stronger, safer and smarter may save lives and property in a future disaster.

<http://www.fema.gov/protect-your-property> - offers a comprehensive overview of available publications to help protect your home or business against hazards including earthquakes, fire, flood, high winds and others.

<http://www.fema.gov/small-business-toolkit/protect-your-property-or-business-disaster> - provides links to resources for protecting your community, your business and places of worship, and offers helpful links like these:

- [Protect Your Business from All Natural Hazards](#)
- [Protect Your Property from an Earthquake](#)
- [Protect Your Property from Fire](#)
- [Protect Your Property from Flooding](#)
- [Protect Your Property from High Winds](#)

###

*FEMA's mission is to support our citizens and first responders to ensure that as a nation we work together to build, sustain, and improve our capability to prepare for, protect against, respond to, recover from and mitigate all hazards.*
